AKC

- Regional centers have been established in Gothenburg, Umeå, Malmö, Stockholm, Örebro, Uppsala and Norrköping
- All authorities except the public prosecutor's office participate with personnel on site
- The Work Environment Authority has employed 7 regional coordinators who coordinate the work at the now existing centre.

Strategic line of business

- AKC must plan for the mapping of, and implementation of coordinated efforts towards particularly strategic industries
- These are **construction-, cleaning, restaurant and other services (beauty care, massage, nail salon, dry cleaning, hairdresser)** as well as strategic employers identified by AKC.

Orientation for the work against workplace crime

AKC's three main areas (controls, crime prevention measures and method development) must be directed towards:

- Strategically selected employers
- Strategically selected industries
- Strategically selected areas
- Controls to achieve regional effects

The work/assignment at the centre

- Processing, selection, planning, implementation and follow-up of controls
- Crime prevention work, ex party consultation
- Method development
- National and regional orientations
- Staffing

Workflow AKC

Before

- Items received from local police areas,
- Handling tips
- Prepare actions/matters

During

- Joint planning between authorities
- Contribution e.g. by inspection, or desk investigation

After

- Manage information sharing
